

# Enhance Classroom Collaboration with MimioStudio Software & MimioMobile App

Bring dynamic learning to your classroom no matter what display you have with MimioStudio™ software. Educators can quickly create interactive whiteboard lessons, collaborative and team activities, and perform real-time formative assessment. Take learning even further with our MimioMobile™ app, which allows group learning and collaboration on almost any device.

**Quick & Easy  
Set Up**

**Touch  
Friendly**

**Formative  
Assessment**

**Collaborative  
Learning**

“The MimioStudio Collaborate feature makes small-group work even more meaningful when students can share their work in the front of the classroom.”

- Melissa Haney, Primary Teacher

**Collaborative learning. Formative assessment. Easy setup.**

MimioStudio™ classroom software and MimioMobile™ app facilitate collaboration and assessments, helping students build their knowledge across all curricular areas. Whether it's two students working together or larger teams, collaboration helps students develop communication and critical thinking skills—which can be done on almost any mobile device, including Chromebooks.

- Use the MimioMobile app to control MimioStudio activities on any display running MimioStudio software.
- The app connects in seconds to the teacher's MimioStudio software—no need to remember IP addresses or complex logins.

# MimioStudio - Built for any classroom technology and any teaching style.

## Simplicity

Create your first interactive lesson in under 5 minutes using the ActivityWizard. Easily connect mobile devices using the MimioMobile App for instant assessment and hands-on learning.

## Keep Using Your Favorites

Import files from SMART, Promethean, PowerPoint, Common File Format (IWB), and video, so teachers can use the content they already have.

## Formative Assessments

Let students complete assessments on the display or from anywhere in the room using a mobile device and MimioMobile app.

## Instant Grading

MimioStudio Gradebook automatically records multiple choice, numeric, and short-answer responses, eliminating the need for teachers to hand-grade tests.

## Classroom Collaboration with MimioMobile App

Share any combination of the students' work on the front-of-the-class display. Compatible with Apple and Android phones and tablets, as well as any device with a supported Web browser—including Chromebooks, Windows and Mac laptops, Windows Surface tablets, and more.

### Front of Room Instruction

Turn the have-tos into want-tos with dynamic multi-media lessons designed for touch technology.

### Small Group

Create opportunities that allow students to practice skills and complete activities as a team.

### Independent

Help students build ownership of their learning and explore content at their own pace.

### Hands-On

Let students experiment and practice skills through a variety of activities like matching, sorting, categorizing, and more.

### Instant Scoring

Students instantly know if they answered correctly, helping them to focus on challenging skills.

### Complete Solution

Brings classroom technology together. Perfect for classrooms using the MimioView, MimioPads, MimioBoards, MimioCapture, MimioTeach, and mobile devices.

# MimioMobile App Specifications

## MimioMobile App for Teachers

<b>Teacher Control</b>	Teacher can control computer desktop.
<b>Teacher Classroom Management</b>	<ul style="list-style-type: none"><li>• The Collaborate feature can be used to highlight, discuss, and share students' collaborative sessions on the front-of-the-class display.</li><li>• Pass control to an active MimioPad tablet or mobile device running the MimioMobile application.</li><li>• Teacher can unilaterally retake control.</li></ul>
<b>App Licensing</b>	Purchase just one annual license for the teacher and download the app to every student device in the classroom.*
<b>Shortcut Keys</b>	<ul style="list-style-type: none"><li>• Provide quick access to up to 16 commonly used MimioStudio tools.</li><li>• Use familiar MimioStudio icons to shorten the learning curve for teachers and students.</li></ul>

## Tech Specs

<b>Interoperability</b>	<ul style="list-style-type: none"><li>• Works on Apple and Android mobile devices.</li><li>• Works on any device with a supported Web browser.</li><li>• The MimioMobile application can work simultaneously and seamlessly with the new MimioPad and MimioVote hardware.</li></ul>
<b>Supported Web Browsers</b>	<ul style="list-style-type: none"><li>• Google Chrome</li><li>• Microsoft Internet Explorer 11 &amp; above</li><li>• Microsoft Edge</li></ul>
<b>Minimum Software Requirements for Classroom Computer</b>	<ul style="list-style-type: none"><li>• MimioStudio 11.5 software on Windows, or Mac OS.</li><li>• MimioMobile activation code, supplied upon purchase of the MimioMobile annual license, is needed to enable functionality.</li></ul>
<b>Compatible Devices</b>	<ul style="list-style-type: none"><li>• iPad 2 and above.</li><li>• All versions of the iPad mini.</li><li>• iPhone 4 and above.</li><li>• iPod Touch (4th Generation and above).</li><li>• Android 3.0 (Honeycomb) or higher.</li><li>• Any device with a supported Web browser.</li></ul>
<b>Languages</b>	33 Supported Languages

## MimioMobile App for Students

<b>Student Activities and Tools</b>	<ul style="list-style-type: none"><li>• Lessons run locally on Apple and Android mobile devices, so students can work more naturally and quickly on their activity, without any lag time.</li><li>• Expanded tool set allows Undo/Redo functionality.</li></ul>
<b>Student Response/Vote Support</b>	<ul style="list-style-type: none"><li>• Allows students to participate in a student response/vote session.</li><li>• Students may use any combination of MimioVote handsets and devices running the MimioMobile app.</li></ul>
<b>Student Collaborative Tools</b>	<ul style="list-style-type: none"><li>• Students can participate in a collaborative activity.</li><li>• Each individual collaboration space shown on the interactive whiteboard is replicated on the respective device, so students don't need to look at the board.</li><li>• MimioStudio Collaborate feature works seamlessly with any mix of new MimioPad tablets and devices running the MimioMobile app.</li></ul>

## Easy and Secure Connections

- On Apple and Android devices, the patent pending process turns the usually complex and time-consuming task of connecting multiple mobile devices into an instantaneous point-and click. Just scan the QR code displayed on the whiteboard, and connect instantly.
- On devices with a supported Web browser, a simple numeric code is provided to connect with ease.
- Connection is secure and minimal support is required.

"The MimioMobile app allows students to actively participate from anywhere in the classroom. And they can even answer assessment questions with their devices."

- Paul Gigliotti, History Teacher

\* Connect up to three mobile devices using the MimioMobile app, free with any MimioStudio license. Connect every mobile device in the classroom with the purchase of an annual MimioMobile license.
