

ProColor IFBD MOB V3.0

## Electric adjustable cart

The height adjustable cart offers you great flexibility, suitable for use with 55 - 86inch displays.

### Safety and optimal flexibility in class

Due to the large range of the high-low adjustment, this cart makes your touchscreen suitable for ergonomic use by every person. Thanks to the mobile frame, you can effortlessly move your touchscreen - in your own classroom, to another classroom, or anywhere its needed.

The adjustable cart is equipped with anti-collision, a blocking protection. When the screen touches something during a movement the cart will stop and back up.

Anti crush built-in and  
Locakable swivel castors

App control for cart  
height adjustment
